FORWARDING LLC

CUSTOMS COMPLIANCE • FREIGHT FORWARDING

UEI K9QEYMWE97W6 · **CAGE** 9GPP5
LCB #42688 · **CCS** · National Permit 2025-0139
FMC OTI/NVOCC #028870NF · **DOT** #3886303
WOSB (Woman-Owned Small Business)
CTPAT Certified Partner · Account #21521345

Your outsourced trade-compliance department — led by a Licensed Customs Broker.

One expert to own your import program end to end: correct classification, lower duty exposure, and audit-ready records across every broker and country of origin.

CORE CAPABILITIES

- HTS classification & duty determination
- Section 232 / 301 / IEEPA analysis & duty-refund recovery
- CBP protests (19 U.S.C. 1514) & post-summary corrections
- Duty drawback claims & program setup
- AD/CVD, country-of-origin & FTA qualification
- PGA / FDA & partner-government-agency compliance
- ISF, customs bonds & ACE/ABI entry filing
- CTPAT program development & certification
- Import compliance audits, broker oversight & reasonable-care SOPs

DIFFERENTIATORS

- **A Licensed Customs Broker who owns the whole program** — not a hand-off across analysts and brokers.
- **Both sides of the fence:** importer-side regulatory and brokerage-side trade in one position.
- **One consistent position** on classification, origin & duty across all of your brokers.
- **13+ years** with multi-country-of-origin manufacturers importing hundreds of parts.
- **Woman-Owned Small Business** — supplier-diversity credit for prime and government work.

Who we serve: NJ & regional mid-size manufacturers and importers — precision machining, metal and industrial components — importing across multiple countries of origin and needing one owner for trade compliance.

PAST PERFORMANCE — REPRESENTATIVE ENGAGEMENTS

- Recovered Section 232 / 301 / IEEPA duties for multi-entry metal-components importers through CBP protests (19 U.S.C. 1514) and CAPE / IEEPA refund claims filed across multiple ports.
- Placed and upsized continuous customs bonds (to $100,000) with no coverage gap for a growing importer, coordinating surety and CBP termination dates.
- Built CTPAT program documentation and reasonable-care SOPs; served as single point of classification and origin across a client's existing brokers.
- Managed ISF, ACE/ABI entry filing and FDA/PGA requirements for ocean importers, including AD/CVD scope monitoring on precision-machined parts.

Client references, entry counts, refund amounts and dates available upon request.
